# More Safety Better Performance More Fun

All On The Same Wavelength

Whether it's student training, family outings, competitive sailing or industrial shipping, Sena Technologies keeps everyone connected and makes your voyage safer and more communicative.

70 % of all yachting enthusiasts state that they experience communication problems due to noise, distance, weather conditions or other reasons.

Appino Water Sports and Activities Survey 2023

At Sena, we made it our mission to connect teammates. Our wireless communications systems revolutionized the motorcycle industry and made us a market leader in the powersports industry. Now we proudly present our first nautical communication systems, featuring our groundbreaking and self-healing Mesh Intercom technology.

# Wherever your next adventure takes you to, be sure to [#sailconnected.](#)

Put to the test in one of the toughest boat races in the world, the Ocean Race, our crew headsets were made to make your sailing adventure safer and more fun.

Enjoy effortless crew communication while having all hands free for the boat, experience the advantages of Mesh Intercom™ Technology and the exceptional audio quality and noise-free transmission you can expect from Sena products.

# Mesh Intercom™ Technology

**Mesh Intercom™  
Technology**

With Mesh Intercom, you can easily and instantly connect with your crew, with one click! Enjoy hands-free communication within a working distance of up to 800 m / 0.5 mi.

The self-healing Mesh Intercom constantly searches for the best way to keep users connected. If the connection to a device gets lost, this does not affect the rest of the group and Mesh Intercom will automatically reconnect as soon as possible.

Communicate in Mesh Intercom with a virtually limitless number of devices. You can switch between 9 open channels.

*"The Sena NAUTITALK makes for real effective communications. No need for crew 'mis-relaying' what's been passed between the helm and the bow. It stops all the shouting, that for many just increase the confusion in the moment."*

- David Hartshorn, Skipper Bekezela

*"It is our goal to create better and safer communication on board sailing boats, while offering a unique experience for our customers."*

- Tae Y. Kim, CEO SENA

*"The Sena NAUTITALK headsets have proved a phenomenal piece of equipment in facilitating communications while up the rig."*

- Laura Hampton, AQP UNICEF

# Communication

**Relied on by Seasoned Mariners for Clear, Efficient Communication Aboard**

Sena Nautitalk Bosun headsets are built for reliable intra-crew communication aboard yachts. With elements like a UV resistant body, superior wind noise cancelling technology and floating design, sailors like Clipper Round the World circumnavigators depend on Sena Nautitalk Bosun in the harshest of conditions. Clear communication anywhere aboard the vessel makes navigating together safer, more efficient and enjoyable for the entire crew.

## Command the Waves with Clear Communication

The Sena NAUTITALK BOSUN is a compact communication headset specially designed for boating and yachting. Enjoy noise-free communication with a microphone designed to filter wind-noises. Being water proof, the Bosun is also the perfect device to stay connected with your crew on the water. It is worn around the neck and can comfortably be combined with sunglasses, caps or helmets.

## Reliable Communication, Wherever You Sail

Designed specifically for the unique challenges of maritime communication, the NAUTITALK series ensures you have a reliable connection even in the most remote sailing destinations. Whether you're cruising along the coast or crossing vast oceans, you can trust our technology to keep you connected.

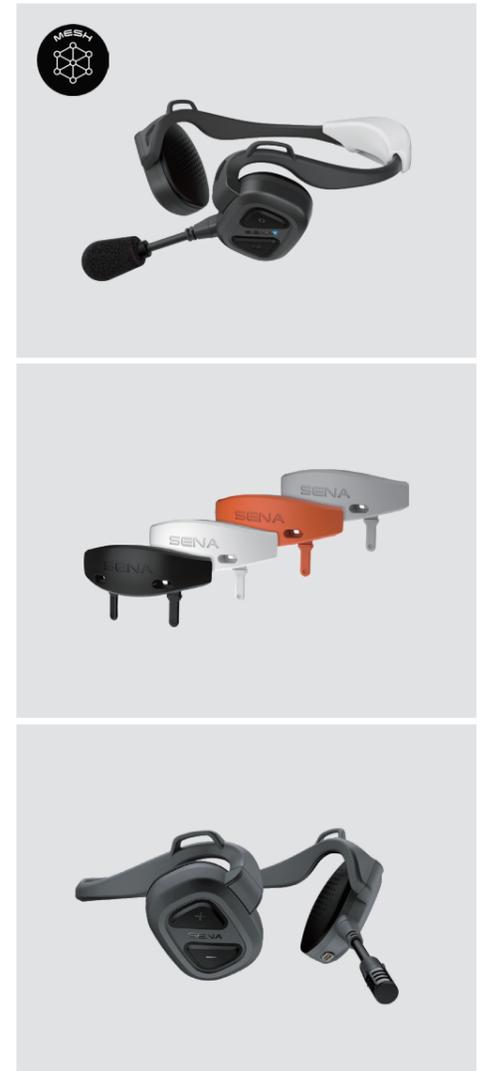

## Seamless Mesh Intercom™ Communication

When using NAUTITALK BOSUN you can communicate hands-free with other NAUTITALK users up to 0.8 km (0.5 mi) away, or up to 1.6 km (1 mi) away with 6 or more users. NAUTITALK BOSUN features Multi-Channel Open Mesh Mode, which supports 9 channels letting users switch between different groups on different frequencies. Sena's Mesh platform offers flexibility by allowing users to come in and out of range while keeping the rest of the group connected without interruption.

\*Mesh Intercom™ on the NAUTITALK series operates solely and exclusively across the NAUTITALK Mesh Intercom network. Products outside the NAUTITALK line are incompatible.

## Sleek & Comfortable Design

NAUTITALK BOSUN was designed with a low-profile form factor that sits comfortably over the user's ears, while still allowing for awareness of surrounding sounds. NAUTITALK BOSUN has rounded arms located just above the speakers, which provide a secure hold on the head and ears. The device's low-hanging neckband allows users to also wear a hat or glasses while using the NAUTITALK BOSUN headset.

## Crystal-Clear Talk for Every Crew

Perfect for noisy environments like engine compartments, work boats or high-powered sport boats, this device stands out with its durability and improved construction. With its over-the-head earmuffs it combines effective communication and hearing protection with a noise reduction. In addition to the built-in intercom system, NAUTITALK N2R allows you to reduce the effects of ambient noise with its Advanced Noise Control™ functionality, allowing crystal-clear audio in your intercom conversation.

## Reliable Communication, Wherever You Sail

Crafted to meet the distinct demands of maritime communication, NAUTITALK N2R guarantees a dependable connection, even in the most remote sailing destinations. Whether you're navigating coastal waters or crossing vast oceans, rely on our technology to keep you seamlessly connected throughout your journey.

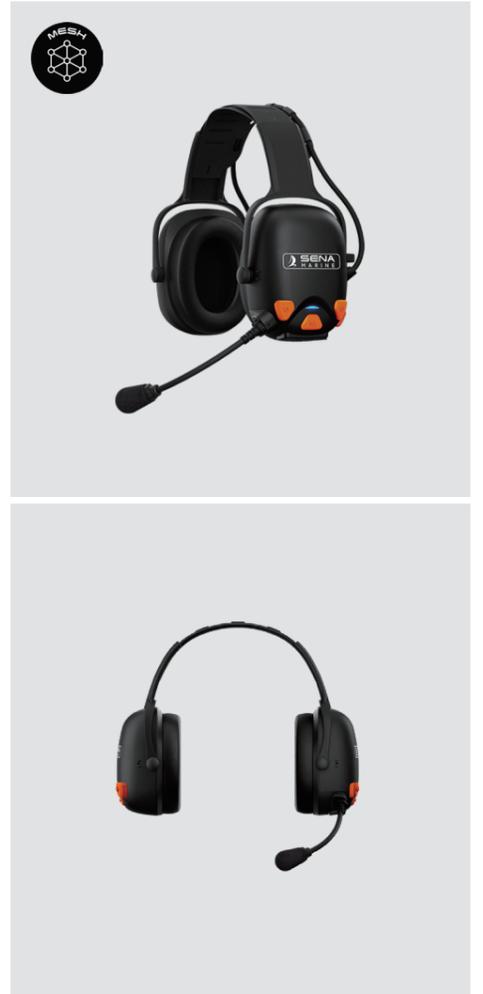

## Seamless Mesh Intercom™ Communication

With NAUTITALK N2R, enjoy hands-free communication with other users up to 1.1 km (0.7 mi) away, or extend the range to 4.4 km (2.8 mi) with 6 or more users. Featuring Multi-Channel Open Mesh Mode with 9 channels, switch between different groups on various frequencies effortlessly. Sena's Mesh platform ensures flexibility, allowing users to move in and out of range while keeping the group connected seamlessly, without any interruptions.

\*Mesh Intercom™ on the NAUTITALK series operates solely and exclusively across the NAUTITALK Mesh Intercom network. Products outside the NAUTITALK line are incompatible.

## Durable & Comfortable

NAUTITALK N2R stands out with its durability and improved construction, providing a durable, long-lasting device. Moreover, its innovative design incorporates internal microphones that capture ambient noise, ensuring safety in high-traffic areas.
