

EcoFlow WAVE 3

Powerful Portable A/C for Any Adventure.

Take Comfort Anywhere

2025/Retail Management Department

Note: Data Collected by April 2025

Why EcoFlow WAVE 3 Stands Out

Quickly Cool or Heat Your Space

Experience quick relief with 6100 BTU cooling (15°F drop in 15 min) or 6800 BTU heating (17°F increase in 15 min).

Up to 8 Hours of Wireless Comfort

Enjoy continuous comfort with the add-on battery offering up to 8 hours of usage.

Seamless Control with the EcoFlow App

Use the app to adjust settings from your phone, even when you're far away.

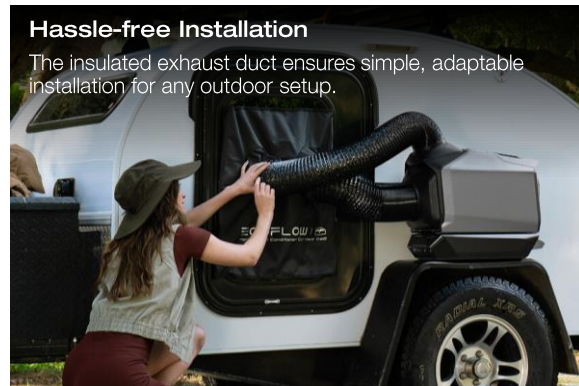

More Ways to Power Up

Multiple charging options ensure you can keep your WAVE 3 running and enjoy uninterrupted fun.

Hassle-free Installation

The insulated exhaust duct ensures simple, adaptable installation for any outdoor setup.

8 Hours of Wireless Comfort

The add-on battery offers up to 8 hours of uninterrupted use—perfect for a full night of restful sleep. High-quality LFP cells ensure a lifespan of up to 10 years in daily use.

Drop or Warm Up

It's All On the App

Easily manage everything from real-time battery status to water drain notifications, mode changes, and scheduled shutdowns—all from your phone, no matter where you are.

Automatic Function

Automatically switches to heating when temperatures drop, keeping you cozy even on chilly mountain camping trips, ensuring a good night's sleep.

Pet Care

Set a temperature range of 77°F to 113°F via the app to protect your pet from heatstroke indoors. Once the set temperature is exceeded, WAVE 3 automatically starts cooling and sends you an app notification.

Dehumidification Function

Adjusts humidity to your desired level, so you can stay comfortable, even during rainy seasons.

Sleep Mode

Operates at just 44dB, about the same as a quiet conversation, ensuring peaceful rest.

Water Drain Alert

When the water tank nears full, the app sends a reminder to drain it, ensuring optimal performance.

Endless Cooling On the Go

By combining AC charging and solar charging, the Add-On Battery can be fully charged in as fast as 75 minutes. With the EcoFlow Alternator Charger, you can charge while driving-1 hour of driving, and stay comfortable all night.

Solar Charging (400W)
Fully charged in 3 hours.
XT60 on the Add-On Battery.

EcoFlow Alternator Charger (400W/800W)
Charge while driving in 1.7 hours.
Both WAVE 3 and Add-On Battery (not recommended to use WAVE 3 directly due to unstable power).

Car Power Outlet (100W)
Emergency charging in 10.8 hours.
XT60 on the Add-On Battery.

AC Charging (700W)
Fully charged in 2 hours.
XT150 on WAVE 3 and Add-On Battery.

Keep Cool While Protecting the Planet

EcoFlow's use of R290 refrigerant reduces pollution compared to traditional refrigerants and protect the planet. Over 10 years, it cuts CO2 emissions by up to 4500lb, the equivalent of saving 130 trees from being cut down.
