weBBoat Link (code IT1304) is the new Single SIM 4G/3G **indoor unit Coastal & Ocean internet system** to get internet on your boat and a secure Wi-Fi hotspot inside and outside the boat using the in-built 4G and Wi-Fi antennas for fast connection. The weBBoat Link is a true compact Plug & Play device that requires minimal setup.

You can use **multiple mixed internet connection methods**, allowing the combination of satellite, cellular, Wi-Fi or any fixed line services, if available, into a single onboard internet system. This allows a **non-stop internet connection** while cruising both closed to the coast and offshore. As the boat moves away from the marina weBBoat Link loses the ability to connect to the marina WiFi but still has cellular and satellite connectivity capability.

You can enable the *Priority function* to choose which connection type is used and in which assigned priority order. Typically, the highest priority links will be the cheaper high bandwidth connections (marina Wi-Fi, then Cellular) with the lowest priority link being the more expensive satellite internet connection.
With weBBoat Link you can choose also to enable only one internet connection methods, for example the marina WI-FI to reduce the cellular or satellite internet data consumption and costs.

Encrypted real-time peer-to-peer connection for **remote set-up & service**.

Automatic APN: Easier and Faster configuration with the automatic selection of your SIM card carrier APN.

Using the Glomex **webUI** or App you can manage and configure any aspect of your onboard internet connection system. You can also **read/send SMS and check the SIM credit** and the cellular internet data consumption.

Technical specifications

Internet antennas: 2 x 4G + 1 x Wi-Fi antennas

DC Power Supply: 9/30 Vdc

Ethernet ports: 2 (1 WAN + 1 LAN)

LTE CAT4: Up to 100Mbps in download

DC-HSPA+: Max 42Mbps in download

Wireless mode: IEEE 802.11b/g/n

Code IT1304 - *for Europe, Middle East, Africa and Asia*

LTE: FDD B1/B3/B5/B7/B8/B20 - TDD B38/B40/B41

UMTS/DC-HSPA+: 850/900/2100 MHz

GSM/GPRS/EDGE: 900/1800 MHz

Code IT1304/US - *for North America*

LTE: FDD B2/B4/B12 (AT&T, T-Mobile, Rogers, Telus)

UMTS/DC-HSPA+: 850/1700/1900 MHz

Code IT1304/SA - *for South America, Australia and New Zealand*

LTE: FDD B1/B2/B3/B4/B5/B7/B8/B28 - TDD B40 (Telstra)

UMTS/DC-HSPA+: 850/900/1900/2100 MHz

GSM/GPRS/EDGE: 850/900/1800/1900 MHz
