Solar Deck Lite

LL-SDL-DECK-W (WHITE)

LL-SDL-DECK-B (BLUE)

The Marine Grade Solar Deck Lite is an industrial strength solar powered dock light made from anodized aluminum for superior protection in harsh marine environments. Will not rot from harsh sun exposure! IP 68 Water-Proof design.

Super bright LED's and powerful solar panel provide all night illumination. Low profile design makes it perfect for docks and marina applications needing to provide ambient pathway & dock lighting. Added built in reflector provides extra safety for passing boaters as well makes them ideal for marking swim rafts. Easy hassle free mounting, no wires, no mess, no electrical cost!

Solar Light Performance & Run Times Yearly Monthly (Averages)

Very Bright & Long

The following information illustrates the significant impact weather, time of year and geographic location have on solar lighting products. Actual performance and run times can vary SIGNFICANTLY based on these factors. The following information should be used as a general reference for solar light performance.

Battery capacity will reduce during the course of the battery life cycle. Replacing batteries when necessary will boost performance. Replacing batteries with a higher capacity battery will increase run times when fully charged, however, higher capacity batteries take longer to recharge.
