

ROKK waterproof wireless charging range

Part No. SC-CW-01E, SC-CW-02E, SC-CW-03E

The IPX6 waterproof 12/24V Qi certified waterproof wireless charging range enables charging for the outdoor environment, without the need for phone charging cables. Designed from the ground up, this is the world's first waterproof wireless charge system created specifically for use on board, with the unique technology is housed in an IPX6, full encapsulated and sealed unit. Working directly with 12/24V systems, ROKK Wireless is ideal for life on the move and is perfect for sail and power boats and also RV. Easy install, anywhere you need your phone - indoors or out. No more wires! Exceeding the latest and highest standards of the Qi wireless protocol, ROKK Wireless is independently certified to deliver ultra-safe charging anywhere on board.

Choose the right install option for your desired charging location:

ROKK - Hidden. waterproof wireless charger 12/24V (SC-CW-01E) WIRELESS.

Sub-surface, hidden from view but always ready to charge. Engineered to be installed under the surface and leave the top surface un-cluttered and looking perfect. Simply etch in your logo to identify the charge location. Ideal for GRP or wood, the unit can be installed under tables, cabinets, consoles or work tops. The installation system is simple to install and works with a variety of panel depths and materials.

ROKK - Surface. waterproof wireless charger 12/24V (SC-CW-02E) WIRELESS.

Low-profile, flush-mounted charge pad with an ultra grippy, non-slip surface. Contemporary look with two-tone colour, designed to complement modern interiors and exteriors. Designed to fit to any smooth surface, indoors or out.

ROKK - Bezel. waterproof wireless charger 12/24V (SC-CW-03E) WIRELESS.

The easiest to install, this option includes the non-slip surface pad but simplifies installation even further. Simply drill a 10mm cable access hole and fit to your chosen location and fast, Qi wireless charging is ready to go.
