AIR DECK

COMPACT INFLATABLE BOAT RANGE

Get out on the water with ease this summer. Our lightweight Air Deck inflatable boats are easy to transport and compact to stow, providing you with the ideal option for your yacht tender requirements or a small boat option for getting out on the water. The Air Deck is constructed using drop-stitch technology which offers rigidity for increased boat performance while keeping weight to a minimum.

BENEFITS

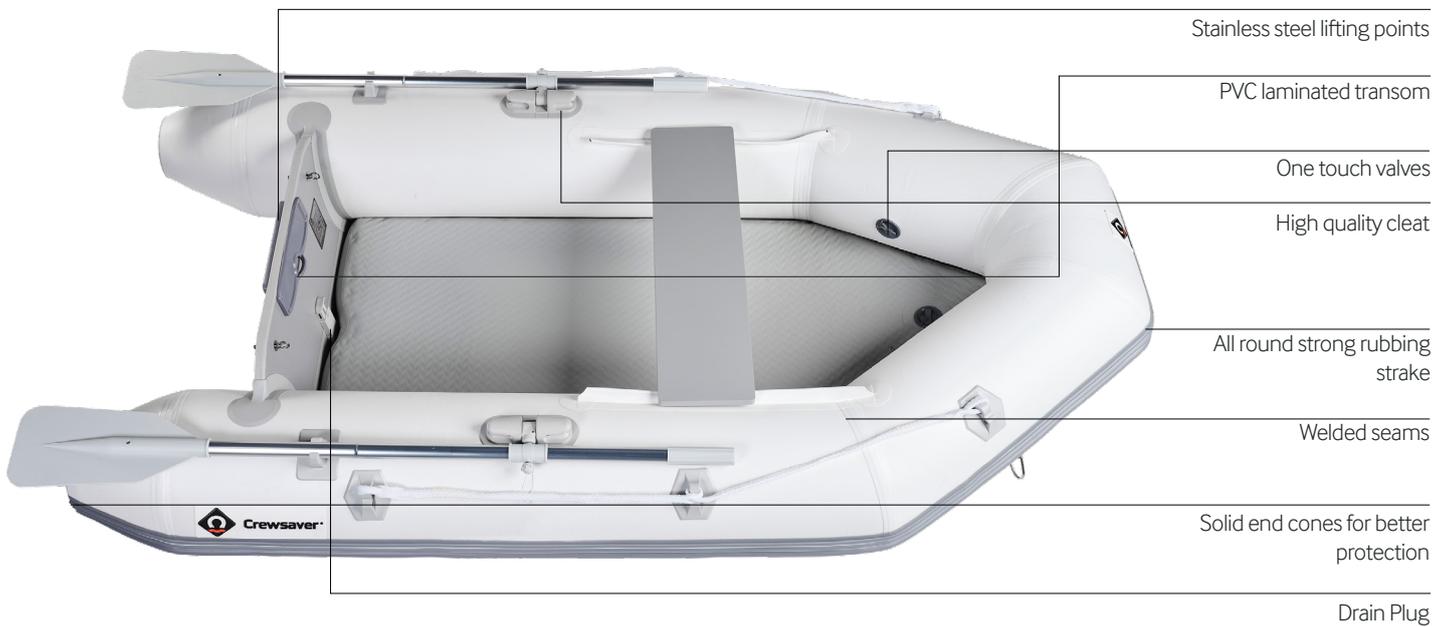

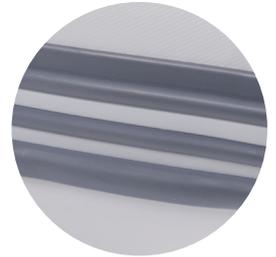

- Thick rubbing strake around the boat to prevent damage
- Made with drop-stitched fabric that gives an extreme rigidity and resistance to perforation
- 2 x stainless steel tow rings fitted around the bow
- 2 x stainless steel eye bolts fitted to transom for davit attachment
- Quick to inflate and deflate
- Solid end cones for protection
- Compact and easy to stow

“Affordable, high-quality tenders available in 5 sizes”

AIR DECK
