

ATACAMA PRO

DRYSUIT SOLUTION ↓

Designed using 3 layer breathable technology and enhanced waterproof properties, the Atacama Pro is ideal for keeping the user warm and dry whilst operating in and out of water. A free stratum fleece is provided with the drysuit, that is easily worn underneath and provides an additional layer of thermal protection and comfort during colder spells.

A unique lower stretch mesh back panel, adjustable braces, articulated arms and legs create a custom-fit to provide the ultimate in freedom of movement. The front entry Aquaseal, flexible zip is positioned for maximum comfort and allows the wearer to don the suit without the need of assistance. Additionally, Cordura reinforced double layered seat and knees provides extra protection to the areas of high wear to maintain longevity and durability.
