

**Description**

EngineBox is an NMEA 2000® gateway suited for motor boat refitting. EngineBox is able to convert various signals into NMEA 2000 strings so that all data is shared with all devices (gauges, display, etc.) in the NMEA 2000 network. Converted signals are: analog engine RPM, analog 4–20 mA, 0–5 V, 0–400 Ω and SAE J1939 signals. The single engine version can manage: one engine with output in frequency, one engine with SAE J1939 output and eight analog inputs. The dual engine version can manage: two engines with output in frequency, two engines with SAE J1939 output and 14 analog inputs. Designed according to international standards, it is suited for installation in an engine room, in coincidental presence of gas and high pressure liquids at high temperatures and flammable. It manages various sensors, both Veratron and third party that can be set and calibrated via the Veratron Configuration Tool.

**Box contents**

- EngineBox
- Cable with MW 100 32 pin connector and lock device
- Installation Kit A2C 1470220001
- These instructions with safety instructions

**Inputs**

EB1	EB2
<ul style="list-style-type: none"> <li>• 4 analog inputs 0–400 Ω</li> <li>• 2 analog inputs 0–5 V</li> <li>• 2 analog inputs 4–20 mA</li> <li>• 1 frequency input 0–4 kHz</li> <li>• 1 SAE J1939 input</li> <li>• 1 NMEA 2000</li> </ul>	<ul style="list-style-type: none"> <li>• 8 analog inputs 0–400 Ω</li> <li>• 4 analog inputs 0–5 V</li> <li>• 2 analog inputs 4–20 mA</li> <li>• 2 frequency inputs 0–4 kHz</li> <li>• 2 SAE J1939 input</li> <li>• 1 NMEA 2000</li> </ul>

**Architecture**

**Accessories**

Part number	Description
A2C96243700	NMEA2000 cable 0.5 m
A2C96243800	NMEA2000 cable 2 m
A2C96244000	NMEA2000 cable 6 m
A2C39312700	NMEA 2000 T splitter
A2C39312500	NMEA 2000 inline terminal

**Before assembly**

**NOTICE:** short circuit. Cable burning, battery explosion. Remove the ignition key and detach the battery negative pole terminal. Refer to the safety instructions on the back of this sheet.  
**NOTICE:** place the device at least 50 cm away from any magnetic compass.

**Assembly**

1. Place the device on the wall with the connector and LED facing down.
2. Secure the device with the two supplied screws.
3. Wire all sensors.
4. Insert the connector and lock it with the specific device.
5. Set and calibrate sensors using the Veratron Configuration Tool.

**Micro-pack MW100 connector pinout (female, cable side)**

**General features**

<b>Material</b>	PA6-GF30
<b>Dimension [mm]</b>	See figures
<b>Protection grade</b>	IP X9k-f IEC 60945 protected
<b>Flammability</b>	UL-94 V0
<b>Connectors</b>	<ul style="list-style-type: none"> <li>• Micro-Pack MW100</li> <li>• NMEA 2000 Micro-C M12</li> </ul>
<b>Status LED</b>	<b>Off:</b> not powered, <b>green fixed:</b> powered without data transmission, <b>green flashing:</b> data transmission underway
<b>Available variations (*)</b>	<b>EB1:</b> single engine, <b>EB2:</b> dual engine
<b>Input data</b>	NMEA 2000, SAE J1939, frequency 0–4 kHz, resistive 0–400 Ω, capacitive 4–20 mA, 0–5 V.
<b>Output data</b>	NMEA 2000
<b>Start-up time</b>	< 1 s

*Note:* Engine Box detects the presence of the single or double engine cable.

**Environmental specifications**

<b>Working temperature</b>	From -25 to +70 °C
<b>Storage temperature</b>	From -40 to +85 °C

**Electrical specifications**

<b>Rated voltage</b>	12 / 24 V dc
<b>Voltage tolerance</b>	9–32 V dc
<b>Working current</b>	150 mA @ 12V
<b>Reverse polarity protection</b>	Yes
<b>Short circuit protection</b>	Yes, 1 minute

**Conformity**

<b>Conformity</b>	
<b>Directives</b>	2011/65/EU (Electrical-electronic equipment hazardous substances)
<b>Reference standards</b>	<ul style="list-style-type: none"> <li>• EN 60945:2002</li> <li>• ISO 8846:1990</li> <li>• IEC 60079-0:1983</li> <li>• DIN EN 60079-11</li> <li>• EN ISO 15584:2001</li> </ul>

**Disposal instructions**

Separate waste and use the collection centers indicated by the government or local public agencies. Correct disposal and recycling help to prevent potentially harmful consequences to the environment and population.
